

Post-op Instructions

After Tooth Removal Procedure

1. Keep the gauze in place for at least 1 hr after the extraction to apply pressure.
2. You may have to change it as needed every 15-20 minutes
3. Do NOT rinse/irrigate your mouth for 24 hrs after the extraction.
4. Do NOT spit out
5. Do NOT use the straw
6. After 24 hrs use salt warm water to rinse
7. It is expected to have some oozing of blood in saliva first 24 hrs
8. IF it is bleeding for longer than 24 hrs or you have to change the gauze every 5- 10 minutes, call the office **847-998-5100**.
